FOOTPAD BOLD GETS MORE GOLD.

Leavenworth, Kas., Oct. 5.—The
authorities at the Soldier's Home are
puzzled. They have guarded closely
against further thieving in the in-
stitution, but Saturday night there
was more of it than usual. Veterans
were robbed of money and jewelry
to the amount of nearly \$100.

James B. Savitts, in the second bed
of the east basement of A. barracks,
was relieved of four silver dollars.
He had been in the home but a short
time and was not expecting thieves.
Frank Skelton was the heaviest
loser. The thief took from him a
watch, which cost \$72 and 96 cents
in money, besides some postage
stamps.

Frank Flishwell had 65 cents tak-
en out of his pockets.

These robberies occurred about 4
o'clock in the morning and A. W.
Parsons of the east basement talked
with a tall, heavy set young man just
outside the door before the robbery.
This man is a suspect but the home
authorities have not caused his ar-

Baltimore, Md., Oct. 5.—There was
no change this forenoon in the situa-
tion created by the tie-up of the team-
boat service of the Maryland, Dela-
ware and Virginia and the Baltimore,
Chesapeake and Atlantic railroad com-
panies. The captains have voted con-
fidence in their executive committee
which is composed of grand officers of
the American Association of Master
Pilots and voiced their desire that this
committee conduct all business in con-
nection with controversy. They de-
clare that they cannot comply with
the terms of the company. This was
in the form of a letter addressed to
each of the resigned captains invit-
ing the masters to meet with their em-
ployers either individually or collec-
tively when an adjustment of the wage
question was promised but insisting
that the management could not discuss
the matters in dispute with outsiders
nor submit to having its captains
members of an association to which
their subordinates belong on the
ground that it would interfere with
proper discipline.

which John D. Rockefeller has erected
in the cemetery at Larson corners,
in memory of his great-grand-
father, Johann Peter Rockefeller, will
be unveiled. The inscription upon the
monument reads as follows:

the year 1732, died in 1735. He gave
this land for a burial place for his
family, its descendants and his neigh-
bors. This monument erected in the

By Associated Press.
Paris, Oct. 5.—Thanh Thai king of
Annam, according to stories reaching
Paris from Indo-China, has again been
guilty of such atrocities that the
French government may be compelled
to adopt rigorous measures as it did
several years ago, when on account of
the scandal caused by the barbarous
torture of the king's personal attend-
ants, the French resident, at the head
of the gendarmes, entered the palace
to save the lives of the attendants and
restore order. The mails now report
that in August the king was seized
with a homicidal mania, ordered seven
of his wives to be executed and looked
on with delight while they were
slowly torturing to death.
A few days later the king shot down
a prince who was seventy years old.
When the French resident called to
remonstrate with Thanh Thai the lat-
ter declined to permit him to enter
the palace. The king wanted to come
to Paris as the king of Cambodia did,
but the French press declares that
such a fiend shall never be allowed to
visit France.

GETTING READY FOR AUTO RACE.

New York, Oct. 5.—Eighteen of the
fastest motor cars in the world, rep-
resenting America, France, Italy and
Germany, will start at 6 o'clock to-
morrow morning in a road race of
297.1 miles on Long Island for the
cup offered by Wm. K. Vanderbilt,
Jr. The pilgrimage of automobile en-
thusiasts to the scene of the struggle
has already begun.

Of the eighteen starters France,
Italy and America will be represented
by five cars each and Germany by
three. This will be the third contest
for the Vanderbilt cup and while
France won the two previous contests,
Italy is steadily gaining on her and
last year Lancia would probably have
won the race but for his unfortunate
collision with Christie.

of President Cassatt:

CITY GAS MAIN IMPROPERLY REPAIRED

Causes Many Homes to be Saddened Through Sudden
Deaths and the Loss of Many Thousands of Dol-
lars in Valuable Business Property.
Others Thought to be Buried.

By Associated Press.
Philadelphia, Pa., Oct. 5.—A terrific
explosion of gas in the subway of the
Philadelphia Rapid Transit company
under construction at Sixth and Mar-
ket streets today resulted in the death
of six men, the injuring of about a
dozen others and caused property dam-
age that will run into thousands of
dollars. Besides the six men that are
known to be dead, it is said that at
least three others are buried under
tons of earth in the wrecked subway.
Extraordinary efforts are being made
to clear the excavation but will be late
in the day before this can be accom-
plished.

The explosion occurred shortly be-
fore seven o'clock and in consequence
of the early hours but a few workmen
had gathered.

Cause of the Fatality.
The explosion was caused by a leak
in a city gas main that had been im-
properly repaired last night. The es-
caping gas formed in a pocket in the
subway and it is believed that a work-
man carrying a lamp into the great
hole ignited the gas. The corner of
Sixth and Market streets is one of the
business sections of the city, but there
was fortunately little traffic there
when the explosion occurred. About a
dozen workmen were gathered near
a large derrick and about five men
were believed to have been in the sub-
way.

The force of the explosion wrecked
the subway
For Half a Block,
and all the structural work including
fell into the excavation. A heavy rain
during the night had slightly weak-
ened the walls of the excavation and ad-
ded to the damage. Just as the gas
blew up a double team dirt car was be-
ing driven directly across the covered
subway by a driver for the Miller Con-
struction company, which is building
the subway. The vehicle, horses and
man, were blown high in the air and
the horses and cart fell into the hole.
The driver landed in the street and
was only slightly hurt. Several of the
workmen who were standing near the
derrick were blown across the street

STORMS CAUSE COTTON TO RISE.

New York, Oct. 5.—The cotton mar-
ket had a very strong and excited ad-
vance at the opening today with
spring months selling above 11 cents
and the general list about 40 points or
\$2 a bale over the closing figures of
the previous day on stop loss covering
and the tremendous buying by the
south, local and Liverpool bulls. Re-
ports of further storms in the south
had a prediction of a squeeze among
dealers short of actual cotton for
October delivery were the factors in
the advance. October here sold at
10.88 or 219 points above the recent
low level. Shorts appeared to be
panic stricken in all markets and De-
cember contracts in New Orleans sold
77 points over the close of last night.

FAR ENOUGH AWAY.

Washington, Oct. 5.—The weather
bureau seismograph recorded another
great earthquake at 9:05 p. m., Oc-
tober 1st, probably central in the In-
dian ocean, and not disastrous.

Either Killed or Injured,

and a number of pedestrians were
hurt by falling glass and signs from
the tall business houses on both sides
of Market and Sixth streets.

Those portions of the subway that
were not covered with dirt burst into
flames and for a time no person dared
venture near the place for fear of
further explosions. Firemen were
quickly on the spot but water was of
little use owing to the fact that the
flames were shooting from dozens of
gas pipes and a large gas main. Dirt
was then resorted to and in the course
of a couple of hours all the flames had
been extinguished except those from
the large main. This was not put out
until nearly ten o'clock and only after
a hole had been dug in the street
near the subway and the main plugged
up. As soon as the fire had been
extinguished and all danger of further
explosion had passed, hundreds of
men were put to work cleaning out the
wrecked subway. From Fifth street
to Seventh street on Market street
and for half a square on Sixth street
both north and south of Market street
not a whole pane of glass is left. All
the large plate glass windows were
broken and thousands of dollars worth
of goods in the show windows were
damaged. Dozens of signs were torn
from the roof and walls of buildings
and it is considered remarkable that
not more persons were killed. The
vicinity of the explosion is roped off
and business within the affected area
is temporarily suspended.

Only Three Identified.

Up to this afternoon only of the six
known dead had been identified. They
are:

JOHN LAWLESS, foreman for the

Millard Construction Co.

FRANK LEANS, an employee of the

United Gas company, who was to as-
sist in repairing the leaking gas main.

R. CAPRIO, a timber man.

Condition Critical.

Of those injured the most serious is
Miss Mary Crow, who was struck by
a plank riding in a street car that had
passed the subway a moment before
the explosion. She is in a critical
condition.

from the West Fork mine at Poca-

still forty in the mines. There is no
evidence thus far of fire and the work
of rescue is not retarded. It will prob-
ably be two days before all the bodies
have been found.

Injured in the Oil Field.

Clyde Robbins, formerly of this place, met with an accident last Thursday while at work in the oil field at Fredericksburg, wherein he was badly burned about the face, neck and hands. He is at present visiting his Spencerville friends.

Mr. Robbins lived in this city for several years, making his home with an aunt, Mrs. J. W. Arnold, of 402 Second street. While in Lima he was employed at the L. E. & W. shops and the steel works.

MRS. MARY MYERS

Injured in a Runaway Near Kossuth Wednesday.

The Spencerville Journal gives the following account of an accident in which Mrs. Wm. Myers, and her son William, were injured. The Myers were former Limaites, living on south Central avenue, and Mr. Myers conducted a saloon and restaurant in the room now occupied by the Standard saloon, on south Main street, below Spring.

"Wednesday afternoon, while driving, Mrs. Wm. Myers received injuries that will render her a cripple for a long time to come, perhaps for life. When just this side of Kossuth the horse she was driving frightened at a wheelbarrow, and before Mrs. Myers who is an expert horsewoman, could gain control the occupants of the buggy were thrown out, resulting in Mrs. Myers receiving a very badly broken ankle, some of the bones being splintered. In the buggy with her were her son, Willie, and a little child her former sustaining a severe strain of one of his ankles, but the latter is aping with a few slight bruises. He was at once on hand and the injured were immediately taken to the office of Dr. Doty in Kossuth, and word sent to Lima for assistance and for C. B. Miller's ambulance. Two of our physicians were soon at the side of the injured and gave what attention was necessary. F. B. Miller, in charge of the ambulance, was informed by the physicians that it would be unwise to move Mrs. Myers yesterday, and he returned home with the two, going to Kossuth again to day and bringing the injured lady to her home in Spencerville. It is hoped her recovery will be rapid, but, at the best, it will be a long time before she can walk without the aid of crutches."

OLD TIME METHODS

Who Informs Governor Harris That He Will Carry Preble County.

Columbus, O., Oct. 5.—Ex-Governor Campbell stopped over in Columbus yesterday on his way from New York to Hamilton, where he opened his campaign last night for congress. Years have dealt kindly with the popular ex-governor and he looks as well and as spry as he was when he defeated Foraker for the highest office in the state. Campbell has carried the third district three times for congress and his friends think he will turn the trick again. He has lost none of his popularity and there is consequently no good reason to believe that his friends are mistaken.

While here he visited Chairman Garber to discuss the political situation and after their interview ended he took up the phone and called up Secretary Flickinger, to learn if Governor Harris was in. He told the genial private secretary, who hails from Dayton, that he was on his way home and wished to inform him that he intended to carry Montgomery county and that he did not think it fair to do so without giving fair warning. The governor then came to the phone and Campbell told him he intended to carry Preble, the governor's home county, which is also in the third district and felt it a duty to notify him in advance. He afterwards dropped in and had a pleasant chat with Governor Harris and Secretary Flickinger, both of whom are old friends.

Will Be Elected.

"Yes, I will be elected," he said in an interview, "and furthermore I will carry every county in the district. I shall speak in every village and township in the district at some time during the campaign."

"I feel that the time has come when we ought to get back to the old time democratic methods of doing things. We want something old fashioned and especially the old fashioned honesty we used to have in the days of fathers. I stand for those principles which give every man an equal chance in this country and I am convinced from the trend of the times, that the end of greed and graft is at hand. I also believe that the predatory trusts are also on their last legs and it is up to the democratic party to give them their finishing stroke, which would be fitting indeed, in view of the fact that it has been the adoption of our principles that started the public conscience in its successful warfare against them."

National Issues.

Asked whether he would discuss national issues in the campaign he said: "I certainly will. I am a candidate for a national office and it is proper I should do so."

"And how about state issues?" he was asked.

"I will devote attention to them only insofar as they come along in line with the party platform. It is but natural that I should have something to say about state affairs, anyhow."

The unequivocal declaration in favor of county local option made by Hon. S. A. Haskins in his recent letter to Rev. J. H. Fitzwater, has put life into the campaign. The views of Mr. Haskins as to temperance questions were known to the delegates of the convention and the letter is therefore no surprise to them. His friends insisted that he was a second Patterson and the people now have reason to think that the claim of these friends were well grounded. The letter is a frank and clear one and shows a disposition on the part of the writer to take the people into his confidence. This is the generally impression here, as will be noted from the following editorial taken from the Columbus Dispatch, one of the leading republican papers of the state:

THE MORAL ISSUE.

"Samuel A. Haskins, the democratic nominee for secretary of state, has declared unequivocally for county local option. His party in convention made profession of standing on the high moral plane where the late Governor Patterson stood, but in the details of platform-making fell short in this most important respect of county local option. Mr. Haskins has for himself changed all that and today, through

He afterwards dropped in and had a pleasant chat with Governor Harris and Secretary Flickinger, both of whom are old friends.

Will Be Elected.

"Yes, I will be elected," he said in an interview, "and furthermore I will carry every county in the district. I shall speak in every village and township in the district at some time during the campaign."

"I feel that the time has come when we ought to get back to the old time democratic methods of doing things. We want something old fashioned and especially the old fashioned honesty we used to have in the days of fathers. I stand for those principles which give every man an equal chance in this country and I am convinced from the trend of the times, that the end of greed and graft is at hand. I also believe that the predatory trusts are also on their last legs and it is up to the democratic party to give them their finishing stroke, which would be fitting indeed, in view of the fact that it has been the adoption of our principles that started the public conscience in its successful warfare against them."

National Issues.

Asked whether he would discuss national issues in the campaign he said: "I certainly will. I am a candidate for a national office and it is proper I should do so."

"And how about state issues?" he was asked.

"I will devote attention to them only insofar as they come along in line with the party platform. It is but natural that I should have something to say about state affairs, anyhow."

The unequivocal declaration in favor of county local option made by Hon. S. A. Haskins in his recent letter to Rev. J. H. Fitzwater, has put life into the campaign. The views of Mr. Haskins as to temperance questions were known to the delegates of the convention and the letter is therefore no surprise to them. His friends insisted that he was a second Patterson and the people now have reason to think that the claim of these friends were well grounded. The letter is a frank and clear one and shows a disposition on the part of the writer to take the people into his confidence. This is the generally impression here, as will be noted from the following editorial taken from the Columbus Dispatch, one of the leading republican papers of the state:

THE MORAL ISSUE.

"Samuel A. Haskins, the democratic nominee for secretary of state, has declared unequivocally for county local option. His party in convention made profession of standing on the high moral plane where the late Governor Patterson stood, but in the details of platform-making fell short in this most important respect of county local option. Mr. Haskins has for himself changed all that and today, through

Columbus, O., Oct. 5.—Ex-Governor Campbell stopped over in Columbus yesterday on his way from New York to Hamilton, where he opened his campaign last night for congress. Years have dealt kindly with the popular ex-governor and he looks as well and as spry as he was when he defeated Foraker for the highest office in the state. Campbell has carried the third district three times for congress and his friends think he will turn the trick again. He has lost none of his popularity and there is consequently no good reason to believe that his friends are mistaken.

While here he visited Chairman Garber to discuss the political situation and after their interview ended he took up the phone and called up Secretary Flickinger, to learn if Governor Harris was in. He told the genial private secretary, who hails from Dayton, that he was on his way home and wished to inform him that he intended to carry Montgomery county and that he did not think it fair to do so without giving fair warning. The governor then came to the phone and Campbell told him he intended to carry Preble, the governor's home county, which is also in the third district and felt it a duty to notify him in advance. He afterwards dropped in and had a pleasant chat with Governor Harris and Secretary Flickinger, both of whom are old friends.

patrons of the Driving club will possibly get one of the unfinished races in addition.

Every horseman expects to see the 2:10 pace go to a full five heats with a possible tie at that. While Elmwood is an overwhelming favorite, Brule B gained friends rapidly last night, and Cleo S. has not lost many. Others look upon Wm. C. as very dangerous also, so that it is a guess at best all round.

"Doc" Burns wired from Lexington last night asking the condition of the track, and the probabilities for Saturday. He was informed that with no more rain the track should be lightning fast here tomorrow afternoon, and Burns will come back from Lexington especially to drive George G., for he is after that world's half mile track trotting record.

Words of praise spoken on every hand must have been enjoyed by the directors of the Lima Driving Park company yesterday. When the down-pour came, on all hands could be heard the phrase, "rain checks." The great majority of the people gathered there would not have been surprised, had the announcement been made "Paddies of today will be good tomorrow." Not so, with the Lima company but in plan words it was announced that money would be refunded to every holder of a badge. Hundreds of out-of-town people appreciated this, for while desiring to witness the races, many would have found it impossible to run today, and they left Lima last night knowing they would always receive a "square deal" at a race meeting here.

Norman B. was a surprise at Lexington, yesterday winning the 2:09 trot, while Malinscott had sold an odds-on favorite. The Kentucky Furber was won by Kentucky Todd, as announced in our dispatches yesterday. Joe Gahagan starts Ethel L. at Lexington today.

The modern mother does so much to spare her children it is a wonder she doesn't think of some plan of taking them to the races tomorrow, their pull for them.

IN SIXTH PLACE

Reds Are Anchored Lower Than For Years.

The Reds will finish the season in sixth position, a lower place than they occupied since 1901, when they wound up absolutely last.

This result was settled yesterday when Pat's Donovan's proud Brooklyn won both games of a double header from the Boston and broke the tie for fifth place, setting that position for themselves. The Superbas have only one more game to play, meeting Philadelphia in a single contest on Saturday. The Reds also have but one more game, that with the Pirates at League Park next Sunday. Should the Superbas lose to Philadelphia they would have a percentage of .31, while the Reds by winning from Pittsburgh can reach only .430. The best the Reds can do therefore is to finish one point behind the Brooklyn.

If the latter beat Philadelphia, or if the Reds lose to the Pirate on Sunday, there will be a wider margin of difference between the two clubs, but the Brooklyn are sure to fifth place under any circumstances.

Style and Quality

Style is a good thing—you want it; you'll get it if you come here. But MERELY style isn't enough—you want quality and good tailoring and style that stays. That's why it pays to buy our Schloss Suits.

Experts know that the difference between a \$10 suit and a \$12 one is mostly in the TAILORING. Cloth and buttons a trifle finer, of course, but it's the workmanship that counts. A good tailor's time is valuable, but the workmanship shows in the way the garment wears.

Some of the finest Tailors in the country are found in the Schloss workrooms. Every man is an expert in his particular branch. Every detail is done perfectly. Handwork is used where handwork is best, otherwise costly machines do the work of many men, and do it better. High-priced designers originate Schloss styles, high-priced tailors do the work. The result is a garment at once fashionable well-made and of splendid quality—full of "the style that stays."

Men's and Young Men's Suits.

Beginning at \$10.00 our prices range upward to \$20. Pay what you like, you will get the greatest value your money can command. Personally, however, we advise you to invest a fair amount—let the maker have a chance to give you his best work. From \$15 up the better qualities appear. It pays to spend rather more than less. This week we offer a specially fine line at

\$15, \$16.50, \$18 and \$20.

Single and double breasted suits, cut in all the latest styles, in all the popular fabrics and colorings, tailored in a way seldom seen in a popular-priced suit. By far the most attractive garments we have ever offered at those prices.

Other well known Clothing made up in the latest fash-
ions at \$8, \$10, \$12, \$13.50, and \$15.

Come in and see them and be convinced yourself.

Annual Opening

WE ANNOUNCE FOR
**This Week and Next Monday
and Tuesday**
THE MOST IMPORTANT STYLE SHOW OF THE SEASON.
WE INVITE ALL LIMA TO BE OUR GUESTS.

Yesterday we purchased the entire sample line of pattern hats from two of the largest millinery houses in this country, and many of them are the original importations from Paris, costing from \$33 to \$50 apiece. We bought them at a price, by taking the lot, that we can sell them much less than the original price. Particular dressers and those that like individuality should not fail to see our display. Their simplicity of tone and elegance of outline lend the true note of style always found in Light & Conner's Millinery, and the wide scope for individual preferences makes this assortment unusually interesting.

The notable style function of the season—the bringing out of the newest and most exclusive modes. We might say that each section of this outfitting store is a Paris shop in itself, so replete is it with the new novelties in women's wearing apparel.

That indefinable something—individuality—so essential in every smart article of attire, is emphasized in a way most pleasing to those in quest of original ideas. Every article of apparel shown at a Light & Conner's opening has a distinctive style character about it, an out of the ordinary air so different from anything you will see in any other establishment. Every creation shown is the inspiration of an artist and not of the copyist. In other words, a Light & Conner opening is an exposition of the work of masters.

There is always a pleasure in viewing things where the surroundings are artistic and assortments complete. This opening offers such an opportunity, which we are sure will be appreciated by the countless number of women who recognize Light & Conner as their authority and who appreciate the truly artistic in women's dress.

A POSTPONED EVENT

Golf Contest Arranged by a Trio Held Over For a Week.

GOLFISTS TAKE NOTE

Postponement Made Because of the Extra Race Features.

Secretary Louis Platt gives notice today that the three gentlemen, who as announced on posters sent male members of the Shawnee Country club, had intended giving an open handicap golf tournament on the local links tomorrow, had specially desired that a postponement for one week be made.

This was done because of the fact that the Lima races with a most attractive program hold over until tomorrow afternoon, which was not anticipated at the time the tournament was arranged. All golfists will please take notice, that the tournament will occur next Saturday afternoon at two o'clock instead of tomorrow.

Every gentleman is invited to participate, no entrance being required, and a dozen golf balls as the prize, divided into six awards, the length of the contest being but one play around the course of nine holes.

Arrangements have been made tonight for the 8.30 limited car to stop at the Country club in order to accommodate a number of gentlemen who are required to be in attendance at the annual meeting of the Lima Club tonight.

ORPHIUM THEATRE.

Crowded houses all week. Did you see Herbert B. Chesley in the Third Generation? Well, it's the greatest character act in vaudeville. Don't miss it. Secure your tickets early for the hospital benefit tonight and see the greatest show of the season.

THE STAGE.

Funny little George Sidney has a new edition of that popular farce, 'Busy Body's Vacation' this season, which he will present at the Grand Opera House tomorrow afternoon and evening, and it is needless to say that fun will prevail as usual. Sidney is well known to theatre-goers through his appearance in the 'Wid & Vokes' offering and his starring at the head of his own company four seasons.

Mr. Edgcomb was a former resident of Allen county, but has only been in Lima once within the past twenty-three years.

ON A VISIT

When the Three Year Old Child Took Fatally Ill.

Sad news was conveyed to John Gantz late last night in a telegram from Mrs. Gantz, who has been on a visit with relatives in Mason, Michigan.

Mrs. Gantz, was accompanied by her three-year-old child, who took seriously ill, and died yesterday. Mr. Gantz left on an early morning train for Michigan, and the remains will be brought to the residence on Atlantic avenue, the funeral being held Sunday and interment made at Mt. Zion cemetery.

ANNUAL MEETING

To Elect New Officers of the Lima Club.

The annual meeting of the members of the Lima Club to elect directors and officers will be held promptly at seven o'clock this evening when a new set of men will be requested to take hold. The interest of this club has been greatly increased during the past few years, and the organization in the city is doing or has done more to boom Lima than this.

The addition of a cafe to the other accommodations made the club as metropolitan as those in larger cities and has proven its great popularity.

PALMA WAS NERVOUS

And Ready For American Intervention in September

BUT KEPT IT QUIET

Governor Nunez Cannot Understand Why He Was Not Confided In.

By Associated Press.

Havana, Oct. 5.—None of Ex-President Palma's intimates, his private secretary and Consul General Steinart had any knowledge of Palma's communication in September to the government, and the greatest surprise is manifested at the fact that Palma actually suggested intervention as a solution. It was well known that Palma was nervous and fearful but it was not generally believed that he was ready to give up; although it had often been rumored he was weakening.

Governor Nunez who visited Palma daily, perhaps as often as any one excepting the vice president and cabinet officers, said today that he thought it very strange that Palma had taken such a step without informing him.

The prevalent comment is now that Palma gave way to panic in far greater degree than was indicated in his call on Mr. Sleeper the American charge at Havana, and Commander Colwell, to land the United States cruiser Denver's sailors.

Fourteen Vessels Present.

Washington, Oct. 5.—At the cabinet meeting today, Secretary Bonaparte presented a map showing the disposition of the naval ships and marines in Cuba and Cuban waters, by which it appears that there are now fourteen vessels of the navy on duty, seven of them being in Havana harbor; and 1,901 marines are distributed at different points in the island. There are 180 marines on the way. One hundred and forty blue jackets also have been landed and are guarding various places. It is expected by the secretary that some of the vessels can be relieved at an early day.

Rivers in New York.

New York, Oct. 5.—General Rieus Rivera, Cuban minister to the several central American republics, arrived here today on the steamer Alleghany from Haiti and Colombia. General Rivera formerly was minister of the interior for Cuba and when the recent crisis in the country's international affairs came President Palma summoned him to Havana.

Battleships To Withdraw.

Washington, Oct. 5.—It is expected that the largest ships of the American fleet if not all of them will be withdrawn from Cuban waters as soon as there is a sufficient army force landed to afford security to the provisional government and the protection of property interest. The ships themselves, it is stated at the department, do not afford any protection to Cuban interests save as being quick transports and barracks for the blue jackets and marines which have been landed on the island. There is no suggestion that the big guns of the ships or even the smaller batteries would be used against the towns and cities whose harbors are large enough to accommodate naval vessels. Therefore, it is stated at the department, the ships will be ordered to resume the cruises which were interrupted when the rush orders to proceed to Cuba were issued.

Must Be Fair Election.

Washington, Oct. 5.—The determining factor in the selection of Governor Chas. E. Magoon, as the provisional governor of Cuba, was the fact of his familiarity with all the laws of Cuba and the steps that were taken during the last American occupation to organize a government. It has already been determined that there must be an election and the machinery for a fair election must be constructed by the provisional governor.

Drawing to a Close.

No dangerous pilot lighter to cause explosions. No flue walls to generate moisture and rust out.

The oven is heated with a burner placed at the bottom of the sides and front, and controlled with a cock located at the front right hand corner. The heat generated passes direct to the top of the oven, is deflected downward and passes into the flue opening located at back of oven. The arrows shown on cut indicate the direction of the heat current. This circulation makes equally available both oven shelves (there being no oven bottom) for simultaneous use.

WRECKING BOAT

WILL BE BUILT.

Seattle, Wash., Oct. 5.—Full particulars of the vessel which is to be constructed by the government for the purpose of removing derelicts have been received by local steamship men from Washington.

The vessel is to be built of steel, with a length over all of 204 feet, beam 34 feet, depth 18 feet, and a displacement in salt water of 1,200 tons. She is to have a fore and after rize, and will be fitted with bilge keels. Its engines will be of about 1,700 horsepower of the triple expansion type, which will operate a propeller 106 feet in diameter. The best Scotch boilers, 14 feet in diameter and 10 feet long, will be installed. Twelve watertight bulkheads are to give added strength to the steamer. For the pur

pose of handling boats and working on wrecks, heavy steam hoisting gear also will be provided. The speed of the vessel is to be 12 knots an hour, and it is to have a steaming radius of 4,000 miles, carrying coal enough to last her during this time.

The craft will be in the revenue cutter department and will be equipped with all modern appliances, including wireless telegraphy, especially constructed storerooms for explosives, searchlights, and all gear which would aid in removing a wreck. It is estimated by the department that the vessel and its equipment will cost \$200,000, and bids will be called for within the next thirty days.

DIDN'T NOTICE CHANGE IN JURY.

St. Louis, Mo., Oct. 5.—The district court room was the scene of an odd occurrence when the case of the Sandwich Manufacturing company against Fitzpatrick Brothers was on trial. The jury had been selected before dinner. Among the twelve men selected was J. H. Hanson of Banner township. The jurors left at noon after receiving the customary admonition of the judges to refrain from discussing the merits of the case with any one.

When court convened again at 2 o'clock there were twelve men in the chairs. The attorneys did not observe that there was any change in the lineup. The case proceeded. Several of the men in the jury box stood up and addressed the judge.

"Was this case in session before noon, your honor?" he asked.

"It was," replied the court.

"I guess I don't belong here," replied the juror, as he stepped from the box. Then the roll was called. Mr. Hanson was missing.

as ardently endorse Doan's Kidney
Pills today as I did six years ago. I
had then been relieved of kidney trou-
ble and the most distressing headache
which clung to me for days at a time.
I have often said since then that
Doan's Kidney Pills were of inesti-

more than that. They removed the

FOREIGN COMMERCE

Of the "Pride of the Antil-
les" Is Rated at \$200,-
000,000 Per Annum.

THE UNITED STATES

Shares Extensively In Both
Imports and Exports of
the Trade.

The foreign commerce of Cuba, ac-
cording to the latest returns received
by the Bureau of Statistics of the De-
partment of Commerce and Labor, ag-
gregates practically 200 million dollars
per annum, the imports being 95 mil-
lion dollars and the exports 110 mil-
lions. The population is in round
numbers 1 1/2 millions, and the area
43,000 miles, or about equal to that of
the state of Virginia.

Of the imports 45 per cent were in
1905 drawn from the United States,
and of the exports 86 per cent were
sent to the United States. There has
been a steady gain in the share of the
imports drawn from the United
States, the share in 1894 being 39 per
cent; in 1902, 42 per cent, and in 1905,
45 per cent. The share of the exports
sent to the United States was, in 1894,
86 per cent; in 1902, 77 per cent, and
in 1905, 86 per cent.

Of the exports during the fiscal year
1905, amounting to 110 million dollars,
sugar alone is valued at 63 million dol-
lars; tobacco, crude and manufactured, 27
million; and fruits about 3 million.
Of the imports, amounting to 95 mil-
lions, cotton manufactures were in
round terms 9 million dollars; bread-
stuffs, including rice, 9 million; cat-
tle, horses, and mules, 7 million; iron
and steel manufactures of iron and steel
not classed as machinery, about 4 mil-
lions; leather, and manufactures
thereof, 3 1/2 million; wines, mail
liquors, and spirits and other bever-
ages, about 3 million; manufactures
of fibers, nearly 3 million; vege-
tables, 2 1/2 million; wood, and manu-
factures thereof, 2 million; oils and
fats for industrial purposes, 1 1/2 mil-
lions; dairy products, a little less than
1 1/2 million; fish, 1 1/2 million; paper
and manufactures thereof, a million;
wool, and manufactures thereof, a mil-
lion, and glass and glassware a little
less than 1 million dollars.

Of the exports, which, as already in-
dicated, are composed chiefly of sugar,
tobacco, and fruits, nearly all of the
sugar and a large proportion of the
fruits are sent to the United States
and the exports of tobacco are divided
between the United States and
Europe, and as a result 57 per cent of
the total exports go to the United
States.

An analysis of the commerce of
Cuba for the calendar year 1904 (the
latest for which detailed statistics are
available) brings out the following
facts: Of the total imports of manu-
factures of cotton, \$3,114,000, Great
Britain contributed 54 per cent, Spain
18.7 per cent, and the United States
10.4 per cent; thus, while the share of
the United States shows an increase
from 7.2 per cent in 1903 to 10.4 per
cent in 1904, it is still less than one-
fifth of that of Great Britain. Of the
imports of manufactures of iron and
steel (not including machinery), \$3,
474,600, the share of the United States
was 48.1 per cent, that of Great Brit-
ain 28.4 per cent, and that of Germany
12 per cent. In 1903 the United States
contributed 43.3 per cent of the im-
ports of iron and steel manufactures
and in 1901 69.4 per cent. Of imports
of machinery not elsewhere specified,
\$2,710,800, the share of the United
States was 76.1 per cent and that of
Great Britain 10.1 per cent.

While the absolute value of the im-
ports of machinery from the United
States shows an increase from \$1,455,-
500 in 1900 to \$2,074,000 in 1904, the
relative importance of the above-
named imports from the United States
fell off from 93.2 to 76.1 per cent for
the same years. During the same
period the imports of machinery from
Great Britain increased from 2 to 10.1
per cent, notwithstanding the 26 per
cent differential in import duty in fa-
vor of imports from the United States.
Of the total imports of machinery for
sugar mills and distilleries, \$1,103,200,
the United States was credited with
73.2 per cent, and Great Britain with
8.3 per cent, as compared with 91.6
and 2.3 per cent, respectively, in 1900.
Of the imports of boots and shoes, \$2,
585,600, the United States contributed
40.3 against 19.1 per cent in 1900, and
Spain 68.6 against 79.8 per cent in
1900. The share of the United States
in the food stuffs imported into Cuba
during the calendar year 1904 was
99.9 per cent of the flour, 99.7 per cent
of the lard, 95.5 per cent of the corn,
90.3 per cent of the meat not else-
where specified, and 50.5 per cent of
the dairy products. Spain contributed
during the same year 36.6 per cent of
the wine and 95.2 per cent of the olive
oil.

Of the exports of Cuba the United
States took by far the largest share.
Of the total exports of raw sugar dur-
ing the calendar year 1904, \$54,258,-

509, the United States took \$54,254,-
271, the United States took \$9,324,575,
and of the total exports of cigars, \$13,-
016,271, the United States took \$3,771,-
449, Great Britain \$5,355,568, Germany
\$1,757,509, and France \$531,167. Prac-
tically the entire export of fruit and
over 50 per cent of the export of cocon-
uts also went to the United States. Thus
it is seen that the whole of the chief
product of Cuba—sugar—and a con-
siderable part of its products next in
importance are exported to the United
States. During the calendar year
1905 the United States imported from
Cuba sugar to the value of \$72,619,-
818 or 70 per cent of the sugar brought
into the United States from foreign
countries, leaf tobacco to the amount
of \$11,897,938, and cigars to the
amount of \$3,855,820.

The ports thru which the principal
commerce of Cuba enters or leaves the
island are Habana, Cienfuegos, Car-
denas, Matanzas, and Santiago. A
little less than one-half of the exports
leave thru the port of Habana and
about 70 per cent of the imports enter
thru that port, the next port in im-
portance being Cienfuegos, on the
southern shore of the island, a little
farther east than Habana. The length
of railways in the island, according to
the latest statistics, is a little less
than 2,000 miles, the principal line
running nearly the entire length of the
island about midway between the
northern and southern coasts, with
numerous branches to the ports on
either side.

The figures of the Bureau of Sta-
tistics show that the imports into the
United States from Cuba in the fiscal
year ending June 30, 1906, were, in
round terms, 85 million dollars, and
the exports to Cuba 48 million. Of
the 85 million dollars worth of im-
ports, 60 million was sugar, 13 1/2
million leaf tobacco, practically 4
million cigars and cigarettes, 2 mil-
lions iron ore, 1 million fruits, and the
remainder miscellaneous.

Of the 48 million dollars worth of ex-
ports to Cuba, iron and steel manu-
factures amounted to practically 10
million dollars, meat and dairy
products about 6 million, flour a lit-
tle over 3 million, lumber 2 1/2 mil-
lions, leather and its manufactures
about 2 million, cattle about 2 mil-
lions, coal a little less than 2 million,
coffee (from Porto Rico) about 1 1/2
million, cotton manufactures about
1 1/2 million, and vegetables about 1
million.

THE DISCOVERER

Of Lydia E. Pinkham's Vegetable Compound, the
Great Woman's Remedy for Woman's Ills.

Yours for Health
Lydia E. Pinkham

No other female medicine in the world has received such widespread and
unqualified endorsement.

No other medicine has such a record of cures of female troubles or such
hosts of grateful friends as has

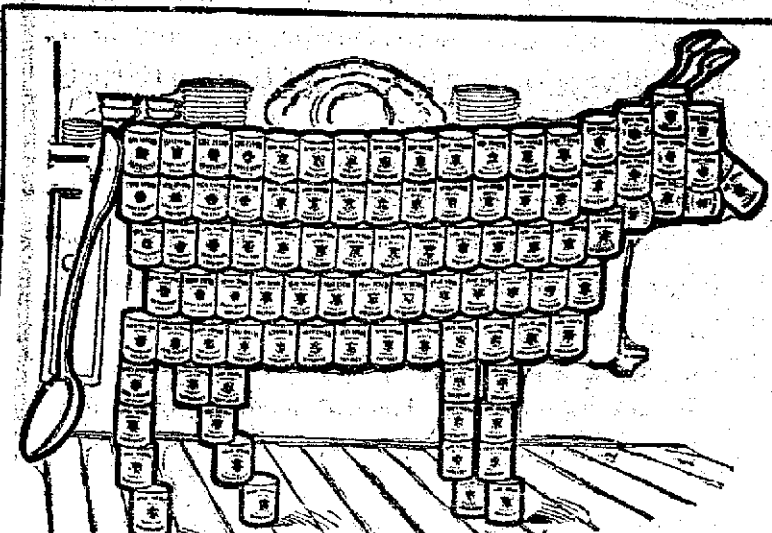

Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, Inflammation
and Ulceration, Falling and Displacement, and consequent Spinal Weakness,
and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Local Weakness than any other
remedy the world has ever known. It is almost infallible in such cases. It
dissolves and expels tumors in an early stage of development.
Irregular, Suppressed or Painful Periods, Weakness of the Stomach,
Indigestion, Bloating, Nervous Prostration, Headache, General Debility,
quickly yield to it. Deranged organs, causing pain, weight and backache, in-
vigorates the female system.

It quickly removes that bearing-down feeling, extreme lassitude, "don't
care" and "want-to-be-left-alone" feeling, excitability, irritability, nervous-
ness, dizziness, faintness, sleeplessness, flatulency, melancholy or the "blues"
and headache. These are sure indications of Female Weakness, or some de-
rangement of the organs, which this medicine surely cures. Chronic Kidney
Complaints and Backache, of either sex, the Vegetable Compound cures.

These women who refuse to accept anything else are rewarded a hundred
thousand times, for they get what they want—a cure. Sold by Druggists
everywhere. Refuse all substitutes.

MISSING RING FOUND

In Possession of Same Man Arrested For Express Robbery.

Case Against B. B. Cooksey Dismissed This Morning.

Detective Dan Kelly made a couple of catches this morning that are regarded in police circles as good ones, one of the prisoners, at least, if not both of them, being supposed to have been guilty of being implicated in a bold robbery which occurred on the platform in front of the United States Express office at the C H & D passenger station last night at a late hour. Employees about the station and express office saw a man suddenly grab a package off of a truck in front of the express office and before any one could intercept him, the fellow ran across the driveway toward the Cambridge Hotel and disappeared in an alley. A description of the man and of the package was furnished the police and Detective Kelly went to work on the case and was rewarded a few hours later by finding a suit of clothes, which the package is said to have had contained, in one of the prisoner's room in a boarding house on north Elizabeth street. The man was in bed in his room when the officer located him and he was found to be a person who has been representing himself as Charles Gorman, of Marion, O., who has been boarding here for about three weeks and represents himself as being employed as a fireman on the C H & D road, but who, from all accounts, has had no such employment. When Officer Kelly entered the man's room, he found there a new suit of clothes, supposed to be those which had been stolen in the package at the depot and also found a ring which is alleged to have been stolen from another boarder in the same house, and five ladies' belts which the police are at a loss to know the ownership of.

The young man was looked up at the police station and in a partial confession which he gave to the police he implicated a race follower named E J. Ernest, who was found and arrested at one of the local rooming houses. Ernest admitted having met the other man last night but claimed to know nothing about the stealing of the express package. He was detained, however, and will probably be held as a witness in the case. Gorman was given a preliminary hearing before Mayor Robb and was bound over to the court of common pleas. He was unable to furnish bond and was committed to the county jail.

Other Court Cases.

B. B. Cooksey, the young man who was arrested on a charge of assault and battery, which was filed by Alex. and Mark, of the Square Clothing store, the latter claiming that they had had some trouble over a pair of shoes which Mr. Cooksey had purchased, was given a trial in mayor's court this morning and the hearing resulted in the defendant being dismissed, there being no evidence to establish the allegation that he had assaulted the proprietor of the place.

A B. Fish, a stranger, who has been at the race tracks this week, was arrested last evening on the charge of having used obscene language in the presence of two young ladies on the grounds. He pleaded guilty to the charge and was fined \$5 for the offense which he claimed was the result of his having taken too many drinks aboard.
